FOR IMMEDIATE RELEASE

## INNOVATIVE VIDEO PRODUCTIONS PRESENTS THE PROFIT PARTNER

Would you like to put your business on television in front of over 1,000,000 potential viewers? Welcome to The Profit Partner cable show where each episode features a different interesting business. Our host is a professional in promoting small to medium sized businesses and she will interview a representative from your company in our studio discussing your business products and services for up to 30 minutes. Longer interviews can be arranged on request. We can also go down to your company and record visuals to be edited in to the final product. This can be an infomercial of just a general business profile scripted or unscripted, the choice is yours. After completion, the video will be distributed to the major cable channels in you area for airing and you'll receive the final DVD of the video. You'll also have the option to upload the video to a large assortment of video hosting sites such as Youtube, Google video, Yahoo video, Vimeo, Blip tv etc. We also provide DVD duplication and labeling services.

Here are some links to previous episodes of the show:
